"What will a Portable Balancer Balance...?"

Balance all Crankshaft or Camshaft Grinding Wheels on your
Grinder. Improves finish quality of your cams or crankshafts...

Trim Balance Racing Engines on Dyno and Analyze vibration of En-
gine.

Trim Balance Engines in car or truck.

Analyze and balance drivelines on the car..Also wheels, tires and
brake hubs.

Analyze where the vibration is coming from on the car. Is it the
rear end, driveshaft, center carrier bearing, torque convertor or
the motor mounts or vibration coming from the engine.

Precison Balance Racing wheels and tires or slicks.

Balance motorcycle tires and wheels.

Balance Plastic, Aluminum or fibrous pulleys

Balance farm combines in combine vehicle{ Strawchoppers, Hammer-
mills, etc. }.

Balance Torque Convertors

Balance fans, supercharger rotors, turbo-charger rotors, electric
motors, centrifuges, turbines, generators or armatures.

Trim balance and analyze motorcycle engines in the bike.

Balanced machinery means less overhauls, improved performance and
smooth, vibration-free operation. Both of these instruments can
be used on your balancer if your electronics needs service. You
would need two pickups for dual plane...

Model 216 comes with a battery pack, so that you do not need the
120vac power. Model 214 comes with 120vac application only.
Both come with a 2-year warranty...

Remember .25 ounces at a 4" center of a rotating rotor, creates
forces of unbalance equal to: 112 pounds at 8000 RPM....

Any Questions, Please feel free to give me a call..
Regards, Gary L. Hildreth, Service Engineer...
